**Length is 23½" for all sizes.*

SUPPLIES

- Vintagely Tiered Skirt pattern
- 1½ – 2 yards of skirt-weight woven fabric (such as cotton, voile or linen; See "Source.")
- All-purpose thread
- Point turner

PREPARE

Prewash and dry the fabric.

Print and tile the pattern. Cut out all pattern pieces in the desired size.

From the fabric, cut two upper fronts, two lower fronts, two upper backs, two lower backs, two long ties on the fold, two short ties on the fold and two back waistbands.

CONSTRUCT

Use ⅝" seam allowances unless otherwise noted, and stitch with right sides together.

Staystitch each upper skirt panel along the waistline edge using a ½" seam allowance.

Stitch each lower-back panel to the corresponding lower-front panel along the side seam, then press open.

Stitch the lower-back panels along the center-back seam, and press open.

Repeat to stitch the upper front and back panels along the side seams and center back. Leave the center front edges open and set aside.

Select a long gathering or basting stitch on the machine. Stitch ½" and ⅜" from the lower skirt panel's upper edge, making sure to leave long thread tails at the stitching beginning and end **(1)**.

Pull the bobbin threads to gather the lower-panel upper edge until the circumference matches the upper-panel lower edge, also matching up the center back and side seams.

Pin the lower-panel upper edge and upper-panel lower edge together, then stitch. Press the seam allowance toward the upper panel. Topstitch the upper panels ¼" from the seamline.

Fold the skirt lower edge, then the skirt front edges ¼" toward the wrong side and press **(2)**.

Fold the skirt lower edge, then the skirt front edge ½" toward the wrong side and press. Unfold just the ½" skirt lower edge and front edges.

Fold one skirt lower-edge corner toward the wrong side at a 45° angle, making sure to align the foldlines, and press **(3)**.

Press the skirt lower edge, and then the skirt front edge ½" toward the wrong side along the foldlines, and pin **(4)**.

Repeat to miter the other skirt lower- edge corner.

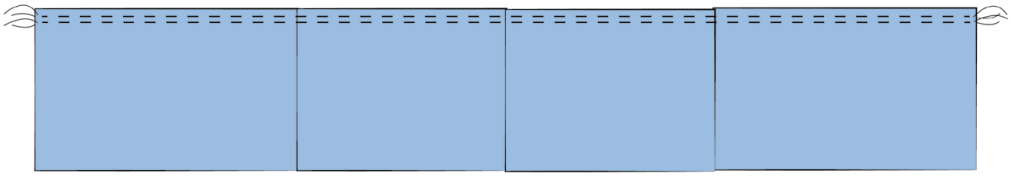
Topstitch the skirt front edges and lower edge using a scant ½" seam allowance, making sure to pivot the needle at each corner.

Pin the back waistband to one corresponding long tie along the short end and stitch. Press the seam allowance open.

Press the entire waistband with integrated ties in half, wrong sides together. Press one edge ⅜" to the wrong side **(5)**.

READ MORE info about gathering on page 18.

1



Pin the unpressed waistband long edge to the skirt upper edge, aligning the center center back and seamlines. Stitch, easing in any extra fullness. Stitch at ⅜" seam allowance, starting and ending at each finished front edge **(6)**.

Press the waistband seam allowances toward the waistband, then continue to press the tie long edge in ⅜" **(7)**.

At each tie short edge, press in ¼" (8).

Pin the pressed tie edges wrong sides together. Continue to press and pin the waistband over the waistline seam **(9)**.

Topstitch a scant ⅛" along the bottom edge of ties into the waistband. Pivot at the tie ends to stitch closed **(10)**.

To wear the skirt, wrap the skirt from the back to the front with the short tie end overlapping at the front and the long tie wrapping around the body to tie in the front with a bow or knot. The thin ties are easy to wrap around the body without an opening in the skirt waistband.
